Education

Birla Institute of Technology & Science, Pilani — Pilani, Rajasthan

M.Sc. Economics & B.E. Civil — *November 2022 – May 2027*

Experience

Product Management Intern, CUBE — **May 2026 - Present**

- Identified trends via product data analysis, driving insights that improved onboarding conversion by 15%.
- Used Claude Skills, Agents, and MCPs to automate recurring product analytics workflows.
- Built SQL, Tableau, and Vercel dashboards to track performance and support data-driven decisions.

Founder's Office Intern, CUBE — **Oct 2024 - Oct 2025**

- Used Claude Skills to summarize tender data and automate filings, saving 8–10 hours per tender weekly.
- Supported the founder with Excel/CRM-driven analysis to inform key business decisions.
- Ran email campaigns and growth initiatives that boosted user engagement by roughly 30%.

Growth and Strategy Intern, Techture Structures — **May 2024 - July 2024**

- Analyzed growth metrics using Excel to optimize acquisition, retention, and funnel performance.
- Managed CRM workflows and email campaigns improving engagement and user conversion rates.
- Conducted market research and competitor analysis to support strategic partnerships and expansion.

Projects

Product Case Study: InMobi — **Dec 2025**

- Repositioned Samsung TVs into Mars-native infrastructure platform driving recurring ecosystem revenue.
- Defined Mars OS roadmap improving engagement through habitat, and communication integrations.
- Evaluated scalable ecosystem-led strategy reducing hardware dependence and increasing platform lock-in.

Product Case Study: MoveInSync — **Jan 2026**

- Prioritized core operations stabilization addressing 18% QoQ increase in operational trip costs.
- Designed metrics framework improving automation trust, routing efficiency, and operational scalability.
- Proposed phased interventions reducing manual overrides, operational firefighting, and overwork risks.

Product Case Study: Zupee — **April 2026**

- Designed gamified microlearning platform targeting India's 900M+ mobile-first upskilling market.
- Built AI personalized learning journeys improving engagement through streaks, and social competition.
- Defined freemium monetization strategy driving retention through subscriptions, and sponsored learning.

Position of Responsibility
